# Foreword

It is with pleasure that we offer you this list of over 370 modern Iris varieties. We think each variety is outstanding in its class, and we have priced them to you at prices wholesale and less.

This business has been built up from a modest beginning through our customers' support, and we do want our old customers to know, that not only do we value their past business, but we intend showing them that we do value their business, by allowing them this dividend on 1948 orders.

Old customers state the year you purchased of us, and to the amount of your order this year, just add a dividend of 10% of Iris Value; this in addition to the regular progressive premiums.

Thanks for the many letters praising our stock and business methods; we will always give you value.

All stock raised on new ground each year. This produces good, clean, healthy stock, and as we go to press, we have had the best growing season in years.

Our guarantee of our stock growing for you is that we will replace any stock that dies; your report must reach us on or before October first the year of purchase. If we can't replace, we will refund your money.

To serve you better, and give personal attention to every phase of the business we have moved our office out to the Gardens, and note our new address. ROUTE 1, Yakima, Washington.

Iris will mature about June 28th; shipments will start at that time. Orders will be shipped in rotation as received.

Please do not ask special shipping dates as we cannot allow the sensational premiums if we have to ship on special shipping dates.

## NEW INTRODUCTIONS FOR 1948

Mr. Luke Norton of Yakima had a very fine plicata, and Mr. Elias Nelson of Yakima had two fine new seedlings; one a lavender-gold, and the other a salmon pink of the new shades of pink.

These three new varieties we feel, will make their mark, and without any apologies we introduce them to the discriminating Iris Fancier.

**SALUSKIN.** (Nelson 1948). This is the largest flower we have seen in the new shades of pink, and has strong stalks and husky plant growth, which is unusual for the new pinks. The color is a lovely shade of salmon pink with a slightly yellowish cast, with tangerine beard, about 38 inches tall with strong stalks and heavy substance throughout. This variety was so good that we named it after the great chief of the Yakimas, "SALUSKIN."

**\$15.00**

**SELAH.** (Nelson 1948). Here is a different color combination, a lovely shade of lavender blue with a glowing gold heart. Leathery substance, well placed flowers, and golden beard. Large flower, about 38 inches tall.

**\$10.00**

**TIETON.** (Norton 1948). Here is a cross of Royal Scot x Lady Naomi that is really a different plicata. Standards are tan-buff solid, with stitching of same lovely color on the edges of the falls, with white background in center of the falls. Golden beard, large flower of strong substance, strong stalk, and about 38 inches tall.

**\$10.00**

You Iris Fanciers that want the unusual; we give it to you as above, and we are so sure that these three introductions will please you, and receive your commendation of being worthy that we give you this unusual offer: If these three Iris or any of them are bought by you and you do not approve of them at blooming time, 1949, let me know and I will send you a credit in like value of Iris upon your report at blooming time.

We regret we cannot place on the market this year the wonderful new plicata of Mr. Norton's, which we will name ROSE AMES, in honor of Mr. Norton's youngest daughter. This is about the loveliest seedling we have ever seen, so watch for it in 1949. You Judges who visit us in 1948 ask to see it in bloom. It's a stunner. Not enough stock as yet.
